ECN calls on its members to input into the EU's crowdfunding review

The European Crowdfunding Network, in cooperation with DG FISMA and its partners, is looking to [collaborate](#) with senior executives of European crowdfunding platforms to provide feedback for the mid-term review of the Capital Market Union (CMU) on obstacles related to cross-border crowdfunding for both lending and securities. An open survey will be launched to all lending crowdfunding platforms and EU securities, which also feeds in to the Commission's review of the CMU.
